

GUIDE TO CHASSIS FOR 009 LOCO KITS

Most of the recommended chassis for the following loco kits are now discontinued. Currently available chassis are shown under the LOCOMOTIVE CHASSIS SECTION

However, replacement RTR chassis for these discontinued loco chassis are either available or in development from N-Drive Productions. Another source of RTR loco chassis is Avalon Line Models. Details of both these companies can be found at the bottom of this guide.

PARKSIDE DUNDAS

DL01- MINITRIX 2-6-2 Chassis
DL02A, DL03A, DL04A – Complete with own RTR Chassis
DL05- BACHMANN 0-4-0 Steam Loco Chassis

CHIVERS FINELINES
